THE BOND ISSUE

Went Through With a Rush,

At the special election held last Saturday, for the issue of \$12,000 worth of bonds for the waterworks and electric light plant, very little interest was manifested. The total number of votes cast was 310, being about one-half of the total number of voters in the corporation. Of the votes cast 272 were for the issue and againt. A two-thirds majority of the total number of votes cast was necessary for the carrying of the resolution and it went through almost unanimously. If the entire corporation vote had been out there would have been but very little difference in ratio on the result except to have more fully demonstrated to every citizen's satisfaction that the measure was wanted badly.
